EXPERTISE  
CENTRUM

## FACILITIES

InVesta supports gasification activities with shared facilities: knowledge, coaching, contacts, access to capital, services and work space.

## DEMONSTRATION OF GASIFICATION ACTIVITIES

Companies with gasification related technologies which are not yet ready for commercial operation are welcome to demonstrate their project at InVesta.

InVesta will facilitate these projects with all kind of shared services.

## PARTNERSHIP

InVesta is a foundation founded by a number of strong partners. These partners are ECN part of TNO, TAQA, Development company Noord Holland Noord, University of applied science Inholland and New Energy Coalition and supported by the City of Alkmaar, Province Noord-Holland and the national government to develop gasification and green gas activities. Also many companies are collaborating with InVesta. Interested organizations or companies are welcome for partnerships.

## CENTRE OF EXPERTISE

With the partners of InVesta all necessary expertise is available to help companies to successfully demonstrate their innovative projects.

The expertise varies from research, project development, financing, subsidy, permitting, etc.

## R&D PROGRAM

InVesta is involved in several (international) research programs which are funded by national or international institutions. InVesta is open for new calls or ideas for new research activities.
